Welcome to NATEX

The latest student development project in Liverpool City Centre

Natex is a 566 unit student scheme with two blocks of 10 and 16 storeys comprising 472 clusters and 94 studio apartments.

The scheme is located in the heart of Liverpool and is a 5 minute walk from the University of Liverpool and Liverpool John Moores University. Strong demand is expected from all students, especially postgraduates and overseas students.

Natex offers a variety of accommodation options, from cluster bedrooms to studios, offering various choices for both post

-graduate and older students, at a variety of price points.

The plans to invest £1bn to expand Liverpool's Knowledge Quarter is to create a 1.8million sq ft science, health and technology hub, attracting world class companies and reinforcing Liverpool's reputation as a global leader in medicine and technology. The expansion of the Knowledge Quarter is expected to be a major draw for international students with The University of Liverpool already having over 34% international students compared to a UK average of 25%.

THE DEVELOPMENT.

The main entrance to the development is located in the link between the two blocks. Block B will house most of the communal areas, student lobby, communal living room, games areas, gym, as well as reception staff office, WC/changing rooms and a refuse store. Block B will provide a welcoming entrance to the development and an active frontage to Norton Street. In addition to the communal areas, Block B will include some studio accommodations.

Block A includes a communal dining room, meeting facilities, laundry room, a refuse store for the student accommodation, games room, sub-station and some studio accommodation to the rear.

In the middle of the development, there is a private communal courtyard for the socialisation and the leisure of both the students and residents.

WHY INVEST IN STUDENT PROPERTY?

- UK's best performing asset class.
- £3.1 billion invested in the sector in 2016.
- Increased demand from overseas investors.
- 2.3 million students are in higher education in the UK.
- £3.1 billion invested in 2016.
- 424,000 places were offered on results day in 2016, up by 3% on the previous year (UCAS).
- Overseas investors contributed £1.49 billion in UK transactions in 2016.
- 40% of global student transactions have been carried out cross-border.
- Overseas buyers likely to dominate the market in 2017.
- Student property became a global powerhouse in 2015/2016.
- The UK's market has room to grow with only 24% of students housed in purpose-built accommodation.
- Globally mobile students are underpinning the demand for purpose-built student housing.

CRM Students is the UK's top managing student agent and has been the assigned property management company at Natex.

CRM Students previously traded as Corporate Residential Management Limited (CRM), became independent in 2004 following a management buy-out and is now the UK's leading independent student accommodation management brand.

Focused on managing the assets of corporate, university and institutional investors, and with over 15 years track record in successfully delivering client objectives, CRM Students, operate over 50 student schemes, totalling over 23,000 bed spaces across the UK.

CRM Students have advised on schemes across the UK from small boutique developments to large complex mixed schemes often through the OJEU process. We utilise a diverse range of designs and technologies, ensuring layout, facilities, amenities, plant, marketing, pricing and product are tailored to achieve a successful live operation through which the needs of the tenants, University partners and key stakeholders are fully met.

The growth of CRM Students as a company has been achieved organically, through careful management of their clients' assets and the ability to adapt our offering to the ever-changing needs of the student body, particularly in their requirements for an outstanding experience. Their portfolio has enabled them to develop and maintain strong ties with some of the most prominent educational institutions such as London School of Economics, Imperial College, The University of Durham, and the University of Edinburgh to name but a few.

Their excellent occupancy rates and feedback from tenants is due to our commitment to improving the student experience of our tenants at every touch point. From initial booking to the welcome meeting, from room inspections and pastoral support and much more besides, their goal is to be as unobtrusive as possible and allow our students to focus on what is important to them whilst at University. They continually refresh their offering to ensure that the students' needs are met; for example they redeveloped their website in 2014 and have invested extensive capital in their state of the art booking engine.

ALLCHURCH PROPERTY LAWYERS

LIVERPOOL CITY CENTRE.

In 2008 Liverpool was the European Capital of Culture, therefore becoming the first city in England to be awarded the title.

One of the major cities in the UK, and home to nearly half a million residents, Liverpool now lies at the heart of the 2nd round of economic investment from the UK Government's Northern Powerhouse Scheme, deeming it as one of the hottest investment locations in the country.

With severe housing shortage of 40,000 homes in the city centre and a fast growing population, Liverpool presents the perfect investment landscape

and was voted by Totally Money 2017 as the hottest UK location for buy to let property.

The City's rich cultural history, marine port and its two Premier League football teams are the first affiliations people make with the city, often unaware of the major evolution and transformation the city has experienced over the last 100 years from the industrial metropolis of the UK to one of the fastest growing 21st century economies.

Liverpool's economy is the fastest growing out of all Northern Powerhouse City Regions

The Northern Powerhouse is a Central Government backed investment to boost economic growth in the North of England and balance the UK economy between the North and South of the country, in particular the core cities of Liverpool, Manchester, Leeds, Sheffield and Newcastle.

The scheme takes on the job of improving transport links, investment in science and innovation and devolution of powers in City Deals. Over the course of the scheme, we will see £3.4bn invested into growth deals, £70m into education, £13bn on transport, and a further £445m invested into improving the quality of life for each of the core cities growing population. Liverpool now leads the way, as the city benefiting most now in this second phase of the scheme while other cities such as Manchester have already seen the bulk of the effects from the investment.

Liverpool Waters

£5 billion of real estate investment delivering 2 million sq ft of mixed used waterside space.

Together with Wirral Waters, the planned £5 billion development across the river, Merseyside will benefit from a combined £10 billion of investment making it the largest development project in the UK.

Knowledge Quarter (right)

Plans to expand the Knowledge Quarter near the Royal Liverpool University Hospital to create a £1 billion, 1.8million sq ft medical hub.

Grade A office space alongside more life sciences targeted space.

The Royal College of Physicians has already agreed to open its 70,000 sq ft northern headquarters on the site.

REGIONAL HOUSE PRICE GROWTH

Liverpool's property prices have risen by 22.7% over the past five years, with apartments going up even more – by 25.2%. Liverpool was the ninth fastest growing city for house prices in the UK in 2016, with year on year growth of 7.0%.

A recent population boom, paired with an under supply of housing, make for an exciting investment case. The city's population rose from 435,500 in 2001 to 466,400 in 2011. Meanwhile, Liverpool has been building homes at an average rate of 713 per year between April 2009 and March 2016. The Home Builders Federation estimates that the city needs 3,000 homes per year to keep up with demand.

18% **7%** **5.5%**

Property values in Liverpool have risen by 18.89% over the past five years

Liverpool achieved year on year house price growth of 7.0% during 2016.

Increase in Liverpool's population in the decade to 2011

2.6% **160%**

Employment growth of 2.6% projected in next five years

Liverpool's City Centre population increased by 160% in the decade to the last Census
